

Post Task Survey - Experimental Condition

Please tell us about your experiences with Crowd Microservices. Your answers are extremely valuable to us: the primary purpose of this study is to understand your experiences in programming work, both the positive and the negative.

We only need your email address to match your survey responses to your work; any reporting of your data will remain completely anonymous.

* Required

1. Email address *

2. 1 - What challenges, if any, did you experience at the beginning of the study before fetching the first microtask? *

3. 2 - Describe your experiences in writing unit tests, implementing the function body, and debugging? *

4. 3 - What challenges, if any, did you experience in understanding how to use and make contributions in the Crowd Microservices environment? *

5. 4 - Were there any points where you felt you were missing the information you needed to work effectively? What information was missing? *

6. 5 - What did you find to be the biggest advantages and disadvantages of making contributions within a 15 minute time period? *

7. 6 - What challenges, if any, did you experience related to using Question and Answer feature? *

8. 7 - What challenges, if any, did you experience related to Review microtasks? *

9. 8 - What challenges, if any, did you experience related to your productivity? *

10. 9 - Any other comments or suggestions that you'd like to share?
